Since 2003, the Minnesota Builders Exchange (MBEX) has provided students in the construction industry with scholarships, funded by member donations and MBEX events. The scholarships are given to support the ongoing training and employment of those in the construction industry in the five-state area.

In addition to direct donations to the fund, our exchange helps to ensure the ongoing development of our scholarship program by hosting the annual Sporting Clays Fundraiser. The proceeds from this event go directly to the scholarship fund and allow our members with the greatest of opportunities to show their support for the growth of the construction industry.

In over ten years, the scholarship program has awarded over $200,000 to over 100 students enrolled in construction-related paths. In 2014, we continued with our pursuit in supporting the industry by teaming up with The Builders Group (TBG) Education Foundation. As our donating partner, TBG will help our organization grow the scholarship program via donating funds and helping to promote the importance of educating our future workforce.

Scholarship information, including applications and past recipients are always available to view at mbex.org/scholarship.

Inquiries into the scholarship program are always welcome. Please contact the Minnesota Builders Exchange to learn more about this program or to offer support via funding and/or ideas for future ways to promote the Minnesota Builders Exchange Scholarship Program.

Contributions to the MBEX Scholarship fund, either by individuals or company, will be graciously accepted and recognized accordingly. The purpose of the scholarship is to encourage ongoing training and employment in the construction industry. A separate on-going account has been set aside for the scholarship fund.
